**Greendet**

ECOLOGICAL DETERGENTS

## PRESENTATION

Greendet emerged in 2009 recognizing the emerging need for ecological, efficient and competitive cleaning products.

With our production unit in Coimbra, Portugal, Greendet exists with the purpose of creating differentiated ideas and products, resulting from the association with the research and development group of the Department of Chemistry of the Faculty of Coimbra of Sciences and Technology.

Greendet aims to produce cleaning products that represent an economic alternative of the highest quality, as well as to develop cleaning products that are better from an environmental point of view, more biodegradable and more effective in lower concentrations.

Currently there are two product lines in the market – Domestic and Professional, accounting for more than 60 products. Despite the constant innovation, in 2014 a corporate restructuring led to a re-imagined image, in order to better identify itself with the company's goals and its partners.

As we favour constant innovation and customer satisfaction, we have the ability to develop custom made products to each client, according to their specific needs.

Maximum efficiency with the lowest environmental impact, this is the force that moves us.

ECOLOGICAL DETERGENTS

## domestic line

Because in your daily life there are details that make the difference, and we always want your home to be bright and welcoming, our domestic line guarantees an environmentally friendly deep cleaning, being the best way to maintain hygiene in all divisions of your home.

In addition, Greendet household cleaners, with 0.5, 1 and 2 litres containers for manual dosage, take up as little space as possible and ensure maximum efficiency in cleaning and disinfecting your home.

Greendet offers a wide range of products in its professional line, developed and tested by specialists, guaranteeing an ecological cleanliness, for the most different needs of hygiene and disinfection, in an easy and effective way, with visible results against germs and bacteria. High quality at a reduced cost, both for our customers and for our planet.

This line features 5 litres containers, ideal for deep cleaning of larger surfaces.

## professional line

## KITCHEN

In the kitchen, hygiene and cleanliness always come first. Greendet's range of products offers a variety of cleaning products aimed at keeping the kitchen clean and disinfected, guaranteeing optimal results against germs and bacteria, in an easy and efficient way.

Cod. 301

## D-MANUAL

### BACTERICIDE MANUAL DISHWASHER

**Concentrated | Soft for hands**

Product with high concentration of cleaning agents and capable of removing even the toughest grease. It is a suitable product for the washing of all type of crockery, glassware and cutlery. Thanks to its neutral pH it is not aggressive to the hands nor the skin. Its components are readily biodegradable.

5 L  
Cod. 102

## D-WASH

### DISHWASHER DETERGENT

**Hard and soft water**

Very alkaline product, with high concentration of sequestrants, which allow optimum cleaning results even in hard water. It has a high capacity of elimination of grease, even the dry and incrustated one. It does not produce foam guaranteeing exceptional results in your dishwashing activity. Its components are readily biodegradable.

**NO PHOSPHATES**

5 L  
Cod. 103

## D-RINSE

### RINSE AID

**Dries | Gives shine**

Product with high drying power. Added to the dishwashing cycle, will leave your crockery, glassware and cutlery shiny and without any water stain. It eliminates the limestone from the water avoiding it being deposited in the dishes, glassware and the dishwasher thus protecting all the vital parts of the equipment. Its components are readily biodegradable.

## S-INOX

### STAINLESS STEEL CLEANER

**Cleans | Gives shine**

Acidic product, which effectively removes even the most difficult dirt (oxidation, grease, etc.) from all stainless steel parts, aluminium, steel, etc., leaving the surfaces shiny and looking new.

**CLEANS AND PROTECTS YOUR METALLIC SURFACES**

## F-HYGIENE TABLETS DISINFECTANT TABLETS

Sanitizes | Utensils

Greendet's effervescent chlorine tablets are fast dissolving, and due to their chlorine releasing agent they can be used in the disinfection of drinking water, vegetable washing and disinfection of surfaces and equipment.

Cod. 105

1 Kg

## D-CALC DESCALER

Descalses | Limestone | Stone | Metal

Product that removes residues and deposits of limestone, being suitable for periodic descaling and cleaning of your dishwasher as it cleans and protects the vital parts of the equipment. Its components are readily biodegradable.

5 L

Cod. 106

## F-HYGIENE LIQUID HYGIENIZER

Sanitizes | Utensils

Presented in a solution that, besides being rich in chlorinated sanitizing agents, a powerful oxidant, is free of toxic substances thus allowing its use in the food industry and its application in the treatment of water for washing food.

5 L

Cod. 107

## M-FREEZE ANTI-FREEZE DISINFECTANT

Sanitizes | Melts ice | Can be used on electrical components

Greendet's antifreeze disinfectant is a neutral pH product with a high concentration of cleaning agents and disinfectants. It effectively removes all types of dirt and eliminates potentially harmful micro-organisms. Due to its composition, it is a suitable product to clean refrigerators and freezers, allowing you to clean them even at negative temperatures, thus avoiding the thawing of the equipment. It's also indicated for cleaning surfaces that come into contact with food products.

5 L

Cod. 109

**NO NEED TO TURN OFF YOUR FREEZER**

# FLOOR

Greendet has the most complete range of cleaning products for all types of floors. Its products are developed and tested by specialists, providing a deep knowledge in the cleaning and treatment of floors, while ensuring the highest ecological standard.

EU Ecolabel:  
PT/020/008

## M-WASH

ECOLABEL BACTERICIDE UNIVERSAL CLEANER

Washes | Perfumes

Cleans and perfumes the entire surface. Its neutral pH does not damage the materials. Effectively removes all types of dirt, degreases and leaves a pleasantly scented environment for a long time. Indicated for cleaning floors and walls of all areas.

## S-WOOD WOOD CLEANER

**Washes | Perfumes | Gives shine**

Product designed for cleaning and caring of wood surfaces, leaving them impeccably clean and bright. Contains anti-static ingredients avoiding dust accumulation on surfaces. Its components are readily biodegradable.

5 L

Cod. 126

## W-WOOD NEUTRAL ACRYLIC WOOD WAX

**Waxes**

Product designed for floors of wood, cork, vinyl, etc., providing glossy and non-slip finishes, with an excellent resistance to scratches and scuffs, without wiping. Its components are readily biodegradable.

5 L

Cod. 128

## W-HARD NEUTRAL ACRYLIC WAX FOR HARD SURFACES

**Waxes**

Product indicated for tile, mosaic and stone, providing glossy and anti-slip finishes, with excellent resistance to scratches and frictions, without wiping. Its components are readily biodegradable.

5 L

Cod. 130

## WAX-OUT WAX STRIPPER

**Removes wax**

Aqueous stripper suitable for all types of wax, leaving the pavements ready to be waxed again. Its components are readily biodegradable.

## OTHER SURFACES

This product line allows a deep and effective cleaning of the most diverse surfaces, such as glass, wood and stainless steel. Here we find from disinfectants multi-surfaces and waxes to paint strippers.

[1 Kg]

Cod. 131

## WC-FRAGRANCE TABLETS

### FRESHENER BLOCKS

**Perfumes the entire bathroom**

Detergent block indicated for the continuous hygiene of the toilet. It releases an active and fragrant foam that cleans the toilet, eliminates odours and prevents the formation of limestone. The active foam formed after each flushing attacks remaining dirtiness and neutralizes the bad odours.

5 L  
Cod. 133

0,5 L  
Cod. 306

## M-DISINFECT SEPT

### MULTI-SURFACE ANTISEPTIC DISINFECTANT

Neutral | Cleans | Disinfects

Product with high concentration of disinfectant agents capable of eliminating potentially dangerous micro-organisms, such as bacteria and fungi. It is indicated for the cleaning of all type of surfaces like floors, counter-tops, tiles, plastics, metal, etc. Given the concentration of solvents, it easily eliminates all dirt leaving clean and luminous surfaces. Its components are readily biodegradable.

**IN ACCORDANCE WITH THE NORMS: EN 13697 - EN 1650 - EN 1276**

5 L  
Cod. 135

## WC-CREAM

### WC CLEANING CREAM

Descalses sanitary stains | Perfumes

Greendet's WC cleaning cream is a product of high concentration of both cleaning and abrasive agents. Effectively removes all types of dirt, leaving a pleasant scent on all surfaces, being indicated for cleaning floors and walls, bathrooms in all sorts of institutions.

5 L  
Cod. 137

## WC-GEL

### TOILET CLEANING GEL

Decontamination of sanitary ware

Product with high cleaning power, capable of eliminating lime and potentially dangerous micro-organisms, perfuming the area for a long time. Suitable product for cleaning toilets. Its components biodegrade rapidly.

**CLEAN GASKETS OR STAINS IN SANITARY PLATES**

## S-GLASS

### GLASS CLEANER

Multi-purpose

Product indicated for the cleaning of windows and surfaces with mirror effect. Thanks to the concentration of its solvents, it easily eliminates dirt, resulting in clear and shiny surfaces. Its components are readily biodegradable.

## ODOUR-OUT ODOUR ELIMINATOR

**Air freshener**

Highly effective product in the elimination of bad odours (tobacco, garbage, footwear, pipes, etc.). It is a product that poses no risk to human health. Thanks to its composition deodorizes and leaves a pleasant aroma on the treated surfaces. Its components are readily biodegradable.

5 L  
Cod. 141

## WC-TOTAL MULTI-PURPOSE BATHROOM CLEANER

**Clean | Sanitizes | Remove Limestone | Perfume**

Product with acid pH, high concentration of cleaning agents and powerful fat and lime removal capacity. Indicated for the cleaning of all surfaces of the bathroom. Its components are readily biodegradable.

**CLEAN YOUR BATHROOM WITH A SINGLE PRODUCT**

5 L  
Cod. 149

1 L  
Cod. 360

## M-PET PERFUMED CREOLIN

**Washes | Sanitizes | Perfumes**

Biodegradable product with neutral pH, high concentration of disinfectant agents and low toxicity for humans and animals. It effectively removes all types of dirt and eliminates potentially dangerous micro-organisms. Due to its composition and pleasant fragrance, it is indicated for the disinfection of all kinds of places where animals live such as stables, pens, dog houses, etc.

5 L  
Cod. 153

## P-SOLVE PIPE CLOG REMOVER

**Uncoils any tubing**

Product with alkaline pH, formulated to easily and effectively eliminate pipe obstructions when mechanical methods do not work. Its components are readily biodegradable.

# PERSONAL HYGIENE

For taking extra care of your body, Greendet offers a line of pH neutral products, allowing frequent and correct washing and disinfection of your body, thus creating a barrier against germs and bacteria.

5 L  
Cod. 142

## H-BODY ANTIBACTERIAL SHOWER GEL

Washes | Hydrates | Perfumes

Antibacterial product with powerful concentration of cleaning agents, high hydration capacity of the skin and capable of eliminating potentially dangerous micro-organisms. Thanks to its neutral pH and built-in moisturisers is a product suitable for frequent washing of the whole body. Its components are readily biodegradable.

5 L  
Cod. 145 NEUTRAL

5 L  
Cod. 146 FRAGRANCE

## H-WASH ANTIBACTERIAL NEUTRAL HAND SOAP

Washes | Disinfects | Perfumes

Disinfectant product with high concentration of cleaning agents indicated to eliminate the dirt and potentially dangerous micro-organisms. Thanks to its neutral pH and the built-in moisturisers is a product suitable for frequent washing and disinfection of hands. Its components are readily biodegradable.

5 L  
Cod. 147

## H-DISINFECT CARE MOISTURISING ANTISEPTIC GEL

Disinfects | Moisturises | No water required

Greendet's Antiseptic Moisturising Gel is a hygiene product with high concentration of disinfectant agents, capable of eliminating potentially harmful micro-organisms such as bacteria and fungi. Water is not necessary to use it and it dries quickly without leaving any residues. Due to the incorporated moisturisers, it does not irritate or dry the skin of your hands. Its components are readily biodegradable.

IN ACCORDANCE WITH THE NORMS: EN 13697 - EN 1650 - EN 1276

## DEGREASERS

The Greendet line of degreasers allows you to clean and degrease the most varied equipment and surfaces such as stoves, hoods, grills, tiles, counter-tops, among others, effectively eliminating all types of grease and carbon, even the most difficult ones.

## M-CLEAN

### MULTIPURPOSE DEGREASER

**Cleans | Degreases | Perfumes**

Slightly alkaline product, with a high concentration of cleaning agents and surfactants, which gives it a high fat removal capacity, even when dried and encrusted. Indicated for cleaning kitchens, extractors, fireplaces, grills, etc., effectively eliminating grease and carbon while perfuming the entire area. Its components biodegrade rapidly.

## M-POWER NON FOAM

### CONTROLLED FOAM DEGREASER

**Degreases | Without Foam | Without perfume**

Degreasing detergent with high penetrating power and solvent agents for oil and proteinic dirt, ideal for all washable surfaces. The controlled foam formula makes it ideal for mechanical washing machines.

## M-POWER

### CONCENTRATED DEGREASER

**Degreases | Without perfume**

Alkaline product, with high concentration of cleaning agents and surfactants which gives it a high fat removal capacity, even dried and encrusted. Suitable for cleaning kitchens, extractors, grills, etc., effectively eliminating grease and carbon, even the most resistant. Can be applied on hot surfaces. Its components biodegrade rapidly.

## M-POWER TOP

### VERY CONCENTRATED DEGREASER

**Very strong degreaser | Without perfume**

Strongly alkaline product, with high concentration of cleaning agents and surfactants which gives it a high fat removal capacity, even dried and encrusted. Suitable for cleaning kitchens, extractors, grills, etc. effectively eliminating grease and carbon, even the most resistant. Can be applied on hot surfaces. Its components biodegrade rapidly.

## LAUNDRY

Details that make the difference. Greendet laundry line provides extra ecological care to your fabrics, giving them a special softness. Thanks to its micro-capsulated perfume, it allows a long-lasting pleasant aroma.

**[10Kg]**  
Cod. 422

**[20Kg]**  
Cod. 423

## L-WASH POWDER

### POWDER DETERGENT

**Washes | Perfumes | Perfume micro-spheres to prolong the scent**

This powder detergent is a product specially designed for use in automatic washing machines with high efficiency and low consumption, providing effective cleaning and a gentle aroma in addition to perfect whites.

**DOES NOT CONTAIN PHOSPHATES**

5 L

Cod. 164

TROPICAL

## L-WASH

### FABRIC DETERGENT

Washes | Perfumes | Perfume micro-spheres to prolong the scent

Product specially developed for washing clothes with difficult to remove stains, such as grease and other organic soils. It quickly penetrates the fibers, eliminating the most difficult stains. Its micro-capsulated perfume allows a longer duration and intensity of the scent, since the perfume is only released with the friction of movement. This is an eco-friendly product and quickly biodegradable.

## AUTOMOBILE

To get your cleaning going, Greendet has created a line for cars, where you can find the most varied ecological products from brighteners and shampoos to rim cleaners, leaving your vehicle fresh and shiny, looking like new.

5 L  
Cod. 404

### A-WASH

#### CAR SHAMPOO

Washes | Gives shine

Product of high concentration of degreasing agents. It effectively removes all sorts of dirt even the toughest, leaving your vehicle looking clean and shiny.

5 L

Cod. 405

## A-GLASS

### CAR GLASS CLEANER

**Anti-fogging**

It is a product suitable for cleaning glass and all the mirrored surfaces of your car. Due to its high concentration of solvents, it can easily solubilize all soils, eliminating them with extreme ease and leaving the surfaces clear and shiny.

5 L

Cod. 406

## A-ANTIFREEZE

### CAR ANTIFREEZE

**Prevents freezing**

Product containing an ethylene glycol base (20%), together with corrosion inhibitors. It protects the entire internal cooling circuit of the motors, keeping it in a perfect state of cleanliness and operation, without attacking the different metallic or non-metallic components of the system itself. It is applied in different percentages depending on the different climatic needs.

5 L

Cod. 408

## A-GEL

### HEAVY-DUTY HAND WASHING GEL

**Washes | Degreases | Perfumes**

Product suitable for hand washing in workshops or other areas where hands are in contact with oil, grease and other heavy-duty stains. Removes all dirt leaving your hands cared for and soft.

5 L

Cod. 410

## A-WHEEL

### RIMS CLEANER

**Washes | Descals**

Product with high dirt removal capacity due to the high concentration of cleaning agents. Effectively removes all kind of grease and brake soot. Leaves the rims of your car looking shiny and new. Its components are readily biodegradable.

# AGRO-FOOD

This product line has been specially designed to improve food safety and productivity in this segment, ensuring the confidence of more and more consumers in an increasing number of markets.

5 L  
Cod. 250

## AGRO-HYGIENE CL CHLORINE ALKALINE FOAM

**Descalcs | Surfaces | Utensils | Foam**

Cleaning and disinfection in a single stage of all types of protein, fat and blood soles, designed for large surfaces in the food industry.

5 L  
Cod. 251

## AGRO-HYGIENE NON-FOAM CHLORINE ALKALINE NON-FOAM

**Degreases | Foamless**

Product especially recommended for cleaning and disinfecting processes in the brewing, dairy, beverage industry, among others (i.e. Circuits, filling lines, tanks, dispensers) as well as in livestock holdings for the cleaning and disinfection of tanks, circuits, milking equipment, and in general for energetic cleanings where a total absence of foam is required.

5 L

Cod. 252

## AGRO-WASH

FOAMING ACID

**Degreases | Active foam**

Acid specially formulated to clean with foam all kinds of surfaces and containers of the food industry. Thus, this product allows for a prolonged contact time, eliminating limescale and protein deposits while preventing oxidation.

5 L

Cod. 253

## AGRO-WASH NON-FOAM

NON-FOAMING ACID

**Descales | Foamless**

Non-foaming detergent for daily use formulated for cleaning of milking machines, food processing equipment, milk coolers and all utensils and equipment where it is necessary to remove incrustations formed by milk minerals. Provides an anti-corrosive effect for stainless steel and aluminium.

5 L

Cod. 254

## AGRO-PERACETIC

PERACETIC DISINFECTANT

**Strong oxidizer**

This product is used for disinfection due to its sterilizing, fungicidal, viricidal, bactericidal and sporicidal properties.

5 L

Cod. 255

## AGRO-HYGIENE SEPT

DISINFECTANT BASED ON AMMONIUM QUATERNARY

**Sanitizes | Neutral**

Product designed for disinfection by spraying or immersion of equipment, food processing tables, valves, pipes, floors, walls and general facilities in the food industry.

# POOLS

The cleanliness of your swimming pool is crucial for a fully enjoyable experience, guaranteeing your comfort in moments in which you look for total relaxation.

5 Kg

Cod. 450

## POOL-CL5

### 5 EFFECTS CHLORINE

PH Control | Flocculant | Algicide

Organic compound in slow dissolving tablets, stabilized, with a minimum active chlorine content of 86%, for disinfection and maintenance of pool water. Complete treatment of water: Disinfectant, algicide, bactericide, flocculant, rinse aid. Ensures continuous chlorination of the water, avoiding the loss of chlorine due to the sun and heat. It lacks the disadvantages of other types of chlorinated products, such as hypochlorite (liquid chlorine), which react with the salts of water causing precipitation of residues that block the holes, valves, etc.

5 Kg

Cod. 451

## POOL-PH-

### PH MINUS

Decreases pH

This product is presented on a white granular crystal. It has a specific gravity of 2,103 and a melting point of 315° C. Sodium Bisulfate is used as a pH-modifying agent to replace the vitriol and is used as detergent for ceramic materials and marbles. It may also be used as a pretreatment agent for acidic washes and coatings.

5 Kg

Cod. 452

## POOL-PH+

### PH PLUS

Increases pH

This product is presented on a crystalline white powder which is soluble in water and insoluble in alcohol. Sodium carbonate is used in the textile industry, in the manufacture of detergents, in the manufacture of glass, in the chemical industry, in metallurgical processes and in flammable gas treatments.

5 Kg

Cod. 453

## POOL-FLOCCULANT

### FLOCCULANT

**Facilitates the deposit of suspended particles**

This product is a fine, white, granular solid. Aluminum sulphate is used in the treatment of water as a flocculant / coagulant. It is also used in the chemical industry, for the manufacture of fertilizers and additives for construction.

5 L

Cod. 455

## POOL-ALGICIDE

### ALGICIDE

**Algae growth control**

Chemical used to eliminate blue algae or green algae when they infest aquatic environments, causing undesirable effects, such as uncleanliness in swimming pools.

A safe response to your Ecolabel certified cleaning requirements. Its certification and efficiency meet the highest environmental requirements that increasingly govern purchasing procedures in our society.

We defend the end of animal tests, for reasons of ethics and science, since not always the reactions observed in the animal body correspond to the reactions of the human organism. We use alternative methods and constantly invest in knowledge, technology and innovation to ensure the safety of our products. For a better world for all.

Disinfectant products, proven in their effectiveness in independent laboratories according to the norms EN 13697, EN1650 and EN1276, from which you can request us the respective results.
